

Keito

Leveraging trust and connectivity

Our Business

Enables a person to be smarter and well connected.

1. Collaborate and network across organizations you are connected with.
2. Mobile-hyper local bulletin board facilities.
3. Enabling hyper local connectivity between people of common interest, societies, companies, clubs and groups.
4. Trusted connections in vicinity provides solutions preferably than remote connections.
5. Single platform- for all your trusted networks and connections.
6. Alumini connectivity becomes easy for educational institutions

Our solution

taking networking to new frontier.

Virtual location

know about your new city from local trusted network and connections

Trust factor

connect with people from your trusted network

Anonymity

maintaining privacy & anonymity

One to one chat

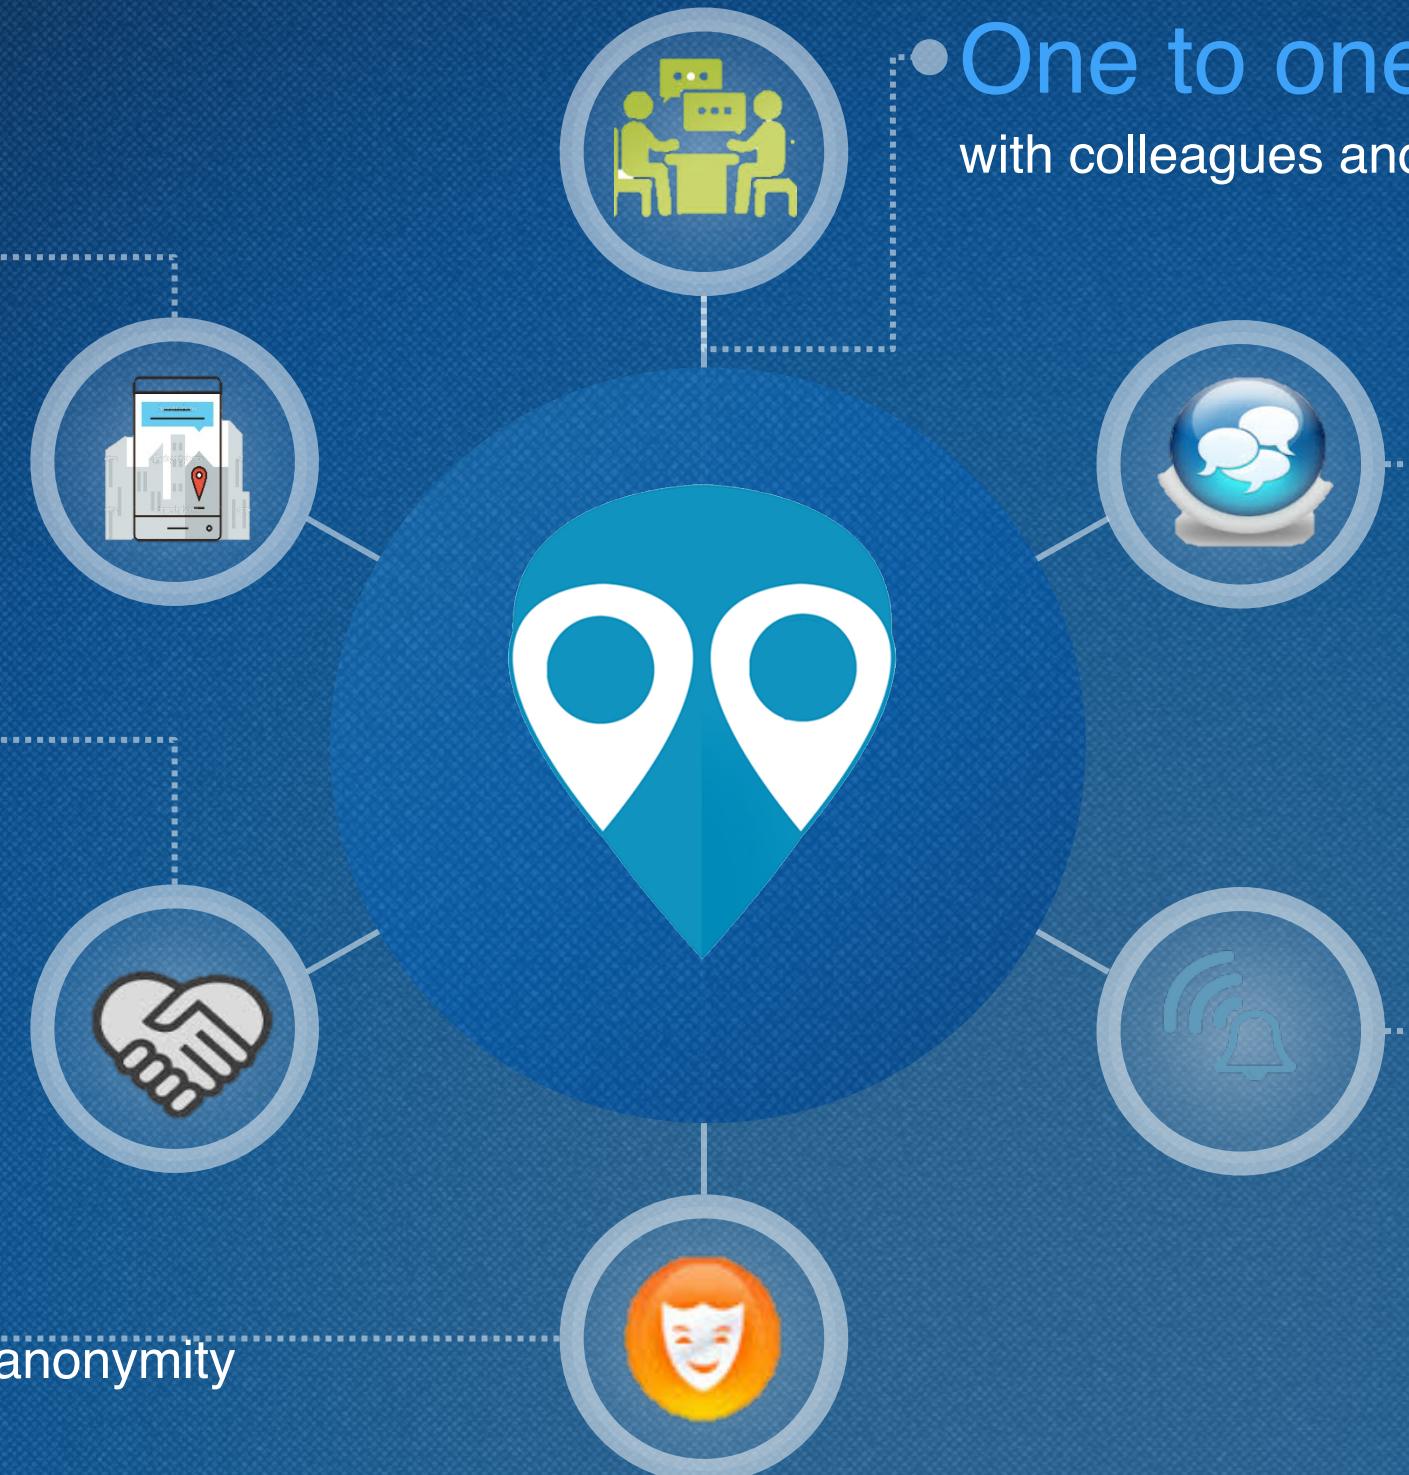

with colleagues and friends in vicinity

Group-discussions

for collaboration, socializing and sharing information

Emergency situation handling

when you need help urgently

Target audience

for mutual benefit.
